

Welcome

To the Vision India Family

May 08, 2013

Dear MAYANK VAISH

Congratulations on becoming an important member of the Vision India family. We are thrilled to have you here. Here in Vision India we believe in providing complete financial freedom and a scope to grow in this era of cut throat competition and performance. Your membership package provides you with a product with various associated benefits that are unique and useful to you and an opportunity to earn money by adding new members under yourself in your own Vision India family.

In my view it is really important for you to know your key family members. If you contact these members directly, be sure to identify that you are an existing member of the Vision India family stating your user id.
